Manufacturing Processes with RobotExpert

ROBOTEXPERT LICENSING HELP

Siemens Tecnomatix RobotExpert requires a license before it can be run. Connecting to a license server allows you to run RobotExpert.

Connecting to a License Server

(1) Note: If you have not already done so, download and install RobotExpert.

To connect to a license server:

1. From the Start menu, open the Tecnomatix **Licensing Tool**.

2. In the left margin, select Environment Settings.

3. In the License Server area, click Edit.

6. Close the Licensing Tool.

Borrowing a License

Borrowing a license allows your computer to run RobotExpert for a specific period without being connected to the license server.

To borrow a license:

1. From the Start menu, open the Tecnomatix Licensing Tool.

2. In the left margin of the licensing tool, select Borrowing Settings.

3. At the top menu, select Borrow.

- 4. Select (check) a relevant license and a return date, and then click **OK**.
- 5. Close the Licensing Tool.
